The Dividend Raise & Cut Report

Jul–Oct 2026

Dividend raises, cuts, suspensions and specials filed with the SEC, Jul 13 – Oct 30, 2026. Cuts, top raises and specials linked to filings.

Jul–Oct in four numbers

195	3	3	21
RAISES	CUTS	SUSPENSIONS	SPECIALS

Between July 13 and October 30, 2026, I logged **195 dividend raises** from 186 companies in SEC filings, against **3 cuts** and **3 suspensions**. Companies also declared **21 special dividends**.

Raises outnumbered cuts and suspensions combined by about 32 to 1. The cuts are worth a closer look: when a company lowers or stops its dividend, the 8-K usually says why. Page 2 lists all six, with the reason in the company's own words and a link to the filing.

Some companies raise their dividend without filing an 8-K about it, so this is a list of what was filed with the SEC, not a complete record of all dividend changes. Not financial advice.

• Blackstone Mortgage Trust paid $0.47 for Q3; its $0.30 is the Q4 2026 dividend, payable Jan 15, 2027 (record Dec 31, 2026).
• Campbell's new $0.25 quarterly rate ($1.00 annualized) replaces $0.39 ($1.56 annualized), per its 8-K.
• Quotes are taken directly from each company's filing. Click "SEC filing" to read the full document.

How this report was built

Built from SEC filings (8-K and, for foreign filers, 6-K). Not financial advice.

The tracker reads dividend announcements that companies file with the SEC, pulls the old and new amounts, and links each one to its filing. This report covers filings dated **July 13 to October 30, 2026**, the full range in the tracker so far. It is not a full-year 2026 view.

What counts. A raise is a higher regular dividend than the prior one for common shares. Each raise is counted once per filing, so a company that raised twice in the window (e.g., Metropolitan Bank) appears twice in the raise count. Percentages are calculated from the filed amounts or, where noted, taken directly from the filing.

What was left out, and why.

• **Re-filed declarations**: earnings releases that repeat a raise announced earlier (Lakeland Financial, EastGroup, Winnebago, Glacier Bancorp, TrustCo, CB Financial, RLI, Independence Realty, Group 1 Automotive, Vox Royalty).
• **Year-over-year comparisons**: filings where the only increase was vs. a year ago, not the prior dividend (e.g., BMO, VICI, United Community Banks, Murphy USA's August filing, S&T Bancorp's August filing, Atmos Energy, ACNB's and SB Financial's July filings).
• **Unreliable amounts**: Blackstone Inc. (amount likely misread), First Majestic Silver (variable dividend, unclear prior), Artisan Partners and Genco (variable dividends), VerifyMe (special amount unclear after reverse split) and duplicate rows.
• **Preferred-share rate resets** (3 Enbridge series).
• **Pre-window declarations**: a later filing that recaps a raise declared before July 13 (CF Industries' $0.60 quarterly, declared July 8 and recapped in its August 5 earnings release; Devon Energy's $0.32 and Gaming and Leisure Properties' $0.82, both raised in the second quarter and paid in June).

Limits. Some companies raise their dividend without filing an 8-K, and some foreign companies file only in their home market, so this list shows what was filed with the SEC, not a complete record of all dividend changes. Amounts are per share, in US dollars unless the filing said otherwise. Always check the filing before you act.
